

Results Cadillac Sportsman's Club XTC Match August 18, 2007

13 competitors shot our August across the course match. We had early fall like weather conditions, cool with a light breeze. However the firing berms were dry and dusty due to the drought we have been experiencing in North West Michigan.

John Wier was the Overall Match Winner with a score of 782-22X. Jim Collins won the Master Class Aggregate with a score of 777-27X. Jim also shot an outstanding rapid fire sitting match posting a score of 200-13X. In the combined Expert and Sharpshooter class I was able to pay two places in the aggregate. Roger Franklin took first place with a score of 760-14X and Jay Mayer took second place with a score of 755-14X.

I would like to thank you for attending the August Across the Course Match. Our next XTC match will be on September 8th. There will be a Mid Range Prone 3x600 match on September 9th. These will be the last two high power matches of the season at the Cadillac Sportsman's Club in 2007.

There is a Palma and 1000 yd match at Camp Grayling on September 15 and 16, with set up and a practice on Friday the 14th. For more information check out the MRPA web site under the Long Range Division or contact me if you do not have access to the internet.
